## ARTICLES, ETC.

| AUTHOR. | TITLE. | PAGE. |
|---|---|---|
| A. Blackwell. | Some doubts about the teaching of mathematics in secondary schools. | 30 |
| K. E. Bullen. | Rotation and strain. | 245 |
| W. H. Cożens. | Cyclically symmetric knight's tours. | 315 |
| P. J. Daniell. | Remainders in interpolation and quadrature formulae. | 238 |
| J. Fairgrieve. | Correlation of the teaching of geography and mathematics. | 187 |
| W. C. Fletcher. | Premature abstraction. | 73 |
| N. M. Gibbins. | Segment loci. | 5 |
| | Points connected with the complete quadrilateral. | 165 |
| | The circle in homogeneous coordinates. | 324 |
| R. L. Goodstein. | On chords of a conic which touch another conic. | 103 |
| F. H. V. Gulasekharam. | On the diagonal triangles of certain quadrilaterals associated with a triangle. | 169 |
| J. C. Jaeger. | The Laplace transformation method in elementary circuit theory. | 42 |

| Author. | Title. | Page. |
|---|---|---|
| E. A. G. Knowles. | The research method in teaching mathematics. | 305 |
| C. D. Langford. | Some missing figure problems and coded sums. | 247 |
| J. Linfoot. | The teaching of elementary inequalities. | 178 |
| A. R. Richardson. | Abstract algebra. | 15 |
| R. T. Robinson. | Theorems on perspectivity. | 9 |
| A. P. Rollett. | Rational cyclic quadrilaterals. | 329 |
| H. V. Styler. | The principal parts of the general conic. | 334 |
| C. O. Tuckey. | Some doubts doubted : a reply to Mr. Blackwell. | 182 |
| M. C. K. Tweedie. | The solution of a certain class of differential equations. | 25 |
| H. Webb. | An investigation into multiplication. | |
| | I. The multiplication of decimals. | 86 |
| | II. Long multiplication of money. | 254 |
| | III. Formal arrangement in long multiplication of money. | 265 |
| G. J. Whitrow. | The evolution of cosmology. | 159 |
| E. T. Whittaker. | The Hamiltonian revival. Review of Hamilton's *Mathematical Papers, II.* | 153 |
| Report of the Council for the year 1939. | | 1 |
| M. Henri Fehr. | | 4 |
| Editorial Note. | | 233 |

## MATHEMATICAL NOTES.

| Author. | No. | Title. | Page. |
|---|---|---|---|
| H. F. Baker. | 1476 | A theorem due to Professor F. Morley. | 284 |
| T. C. Batten. | 1478 | The multiplication and division of decimals and contracted methods. | 287 |
| G. W. Brewster. | 1480 | On Note 1429. | 290 |
| A. J. Carr. | 1439 | A theorem on exponentials and series. | 56 |
| T. R. Dawson. | 1481 | Some algebraic computations. | 291 |
| | 1484 | Unequal lines are sometimes equal. | 342 |
| | 1493 | An unexpected converse. | 356 |
| M. F. Egan. | 1440 | Uniform convergence. | 57 |
| N. M. Gibbins. | 1446 | Arithmetical flukes. | 109 |
| E. Goodstein. | 1451 | A note on magic squares. | 117 |
| A. R. Green. | 1471 | A geometrical problem. | 215 |
| | 1483 | On Note 1471. | 341 |
| F. H. V. Gulasekharam. | | | |
| | 1448 | The circle in homogeneous (areal) coordinates. | 112 |
| | 1449 | A new form of the equation of the director circle of a conic. | 114 |
| T. W. Hall. | 1444 | Practice. | 107 |
| H. N. Haskell. | 1469 | A suggestion in notation. | 213 |
| | 1470 | A proof of Feuerbach's theorem without use of inversion. | 214 |
| | 1475 | The foci of conics. | 282 |

| Author. | No. | Title. | Page. |
|---|---|---|---|
| P. J. Heawood. | 1490 | On Note 1471. | 351 |
| | 1492 | Triple conjunction. | 355 |
| A. Hinckley. | 1460 | Formulae for the solution of triangles. | 204 |
| R. Holmes. | 1457 | On Note 1429. | 123 |
| W. Hope-Jones. | 1437 | Feuerbach's theorem. | 54 |
| | 1468 | Icosahedron. | 212 |
| | 1491 | Visible edges of an icosahedron. | 352 |
| C. D. Langford. | 1464 | Uses of a geometric puzzle. | 209 |
| E. P. Lewis. | 1445 | Feuerbach's theorem. | 108 |
| H. V. Lowry. | 1486 | Notes on differential equations. 1. Solution of linear differential equations by division. | 343 |
| | 1487 | Notes on differential equations. 2. Methods of discussing the behaviour of the solution by studying the differential equation. | 347 |
| R. C. Lyness. | 1463 | Note on $\gamma$. | 206 |
| E. McLean. | 1442 | Pythagorean numbers. | 59 |
| J. Mahrenholz. | 1436 | On Note 1395. | 54 |
| H. V. Mallison. | 1454 | An array of squares. | 119 |
| I. M. Mathews. | 1456 | A useful triangle. | 122 |
| L. J. Mordell. | 1461 | Problem. | 206 |
| E. H. Neville. | 1435 | Notes on conics. 2: Radial measures and the orthoptic constant. | 51 |
| | 1441 | The fundamental property of a Farey series. | 58 |
| | 1472 | A note on implicit functions. | 275 |
| | 1473 | The potential of a rod. | 277 |
| | 1474 | Notes on conics. 3: How many Pascal lines has a sixpoint? | 277 |
| | 1488 | Notes on conics. 4: The conic as a locus of ideal points. | 348 |
| | 1489 | Notes on conics. 5: Theorems as constructions. | 350 |
| | 1494 | Products of vectors. | 357 |
| J. Pedoe. | 1477 | An old problem. | 286 |
| A. Robson. | 1438 | Note on Note 1409. | 56 |
| A. P. Rollett. | 1465 | Lodge's theorem on the motion of the centre of gravity. | 211 |
| | 1466 | Odds and evens. | 212 |
| | 1467 | Braking efficiency in motor cars. | 212 |
| T. G. Room. | 1479 | A geometrical note. | 289 |
| W. H. Salmon. | 1452 | Solution of quadratic equations by the slide rule. | 117 |
| R. Sibson. | 1485 | Comments on note 1464. | 343 |
| H. Simpson. | 1455 | A note on Sylvester's method of elimination. | 121 |
| R. Smart. | 1450 | The addition theorems. | 116 |
| J. E. Steffensen. | 1443 | Note on certain identities. | 106 |
| B. A. Swinden. | 1453 | The half-angle formulae and the tangent rule. | 118 |
| V. Thébault. | 1447 | Triangle bordé de triangles isoscèles semblables. | 111 |
| C. O. Tuckey. | 1462 | Products of vectors. | 206 |
| Editorial. | 1458 | On Note 1407. | 124 |
| | 1459 | On Note 1430. | 124 |
| | 1482 | Descendants of Sir William Rowan Hamilton. | 294 |

## REVIEWS AND NOTICES.

| Author. | Title. | Reviewer. | Page. |
|---|---|---|---|
| A. C. Aitken. | Determinants and matrices. | *W. L. Ferrar.* | 68 |
| | Statistical mathematics. | *J. Wishart.* | 147 |
| A. A. Albert. | Structure of algebras. | *A. R. Richardson.* | 67 |
| H. S. Allen and R. S. Maxwell. | | | |
| | A textbook of heat. II. | *J. H. Pearce.* | 231 |
| M. Appleby. | Elementary statics: a text-book for engineers. | *W. G. Bickley.* | 139 |
| B. B. Baker and E. T. Copson. | | | |
| | The mathematical theory of Huygens' Principle. | *S. Chapman.* | 131 |
| R. H. Baker. | Astronomy. (3). | *H. Newton.* | 141 |
| S. Barnard and J. M. Child. | | | |
| | Advanced algebra. | *W. L. Ferrar.* | 145 |
| H. A. Baxter. | Elementary geometry. | *H. Beardwood.* | 144 |
| P. Bernays. | *See* D. Hilbert. | | |
| G. W. Brewster. | Algebra. | *C. O. Tuckey.* | 228 |
| E. W. Burn. | A mathematical handbook for Sixth forms. | *A. P. Rollett.* | 142 |
| G. W. Caunt. | Elementary calculus. | *F. W. Kellaway.* | 132 |
| J. M. Child. | *See* S. Barnard. | | |
| E. R. Clarke. | Predictable accuracy in examinations. | *F. Sandon.* | 364 |
| J. L. Coolidge. | A history of geometrical methods. | *J. A. Todd.* | 358 |
| E. T. Copson. | *See* B. B. Baker. | | |
| L. Crosland. | Upper school algebra. (Abridged and revised edition of Hall and Knight's *Higher algebra*). | *N. M. Gibbins.* | 362 |
| L. E. Dickson. | Modern elementary theory of numbers. | *L. J. Mordell.* | 295 |
| R. Dugas. | Essai sur l'Incompréhension mathématique. | *M. Black.* | 223 |
| Sir Arthur Eddington. | | | |
| | The philosophy of physical science. | *W. H. McCrea.* | 60 |
| H. A. Edgerton. | *See* A. K. Kurtz. | | |

| International Congress. | i |
| Appeal from the American Mathematical Society. | i |
| *Eureka*. | i |
| Correction. | 124 |
| Bureau for the solution of problems. | 124, 232, 328 |

---

The separate Indexes to Vols. XV-XXIII were compiled by my wife, but the dislocation due to the war has made it impossible for her to carry out this task for Vol. XXIV. I am indebted to Mr. B. M. Brown for much valuable assistance in checking the proofs of this list.—T. A. A. B.
